TAMS will soon discontinue its products and exit the test and measurement market.

From now until December 30, 2015, TAMS will continue to sell, ship and support its available products. All TAMS products will continue to be protected by our money back guarantee and standard warranty. This protection applies to all products shipped between now and the end of 2015. Hardware warranties will be honored for one year up to the end of 2016.

At this point, there will not be any more software updates.

In the first quarter of 2016, TAMS may continue to sell, ship and support some of its products, but will do so under different terms. All production will be discontinued and availability will be limited to stock on hand. Product warranties will be limited to the end of 2016. Distributor sales and credit terms may be discontinued and only non-cancelable orders with advanced payment will be accepted.

Aside from possible hardware warranty service, TAMS does not intend to continue any operations beyond March 2016.

At present, we have no plans to make any price changes in 2015, but we do expect to review pricing for all remaining stock sold in the first quarter of 2016.

It is our intention to avoid supply disruptions and many of our products are still available from stock. However, some products are already [out of stock](#) with no further production planned. We expect larger customers to make substantial purchases and present availability cannot be guaranteed. All final production should be scheduled by **[November 13, 2015](#)** and we request any customer intending to make an end-of-life purchase to contact us immediately to discuss your requirements.

We value our long relationship and encourage you to contact us with any questions or concerns.
